VERSAdos DOCUMENTATION

VERSION 4.4

VOLUME 1

VERSAdos OVERVIEW, M68KVOVER/D6 — OVERVIEW

- VERSADOS Operating System
- System Software
- Index

M68000 FAMILY CRT TEXT EDITOR USER'S MANUAL, M68KEDIT/D9 — EDITOR

- General Information
- Invoking the Editor
- The CRT Mode of Operation
- The Line Mode of Operation
- Text Editor Messages
- Glossary of Terms
- Index

M68000 FAMILY SYSTEM FACILITIES REFERENCE MANUAL, M68KVSF/D7 — FACILITIES

- General Information
- The First Sessions
- VERSAdos Session Control
- VERSAdos Utilities
- Security Administration
- Library of Executable Functions, Macros, Constants, and
- Data Structure Configurators
- The Bootload File -- IPL.SY
- S-Record Output Format
- Summary of System Administrator's Privileges
- Index

VOLUME 2

M68000 FAMILY RESIDENT STRUCTURED ASSEMBLER REFERENCE MANUAL, M68KMASM/D9 — ASSEMBLER

- General Information
- Source Program Coding
- Assembler Directives
- Invoking the Assembler
- Macro Operations and Conditional Assembly
- Structured Control Statements
- Generating Position Independent Code
- Instruction Set Summary
- Character Set
- Sample Assembler Output
- Example of Linked Assembly-Language Programs under VERSAdos
- Assembly Error Codes
- Index

M68000 FAMILY LINKAGE EDITOR USER'S MANUAL, M68KLINK/D7 — LINKER

- Introduction
- Memory Allocation
- Invoking the Linker
- User Commands
- Listing Formats
- Relocatable Object Module File Format
- Load Module File Format
- S-Record File Format
- Debug File Format
- Examples
- Error/Warning Messages
- MVME12x-Specific Information
- Index

SYMbug/A AND DEbug MONITORS REFERENCE MANUAL, M68KSYMBG/D4 **SYMbug/DEbug**

- General Information
- SYMbug Commands
- DEbug Commands
- Index

VERSAdos PASCAL RESIDENT RUN-TIME LIBRARY **RRTL**
USER'S MANUAL, M68KVPRTL/D1

- Introduction
- Functional Description
- Access to System Directives
- RRTL Source Files
- RMS68K Directives
- IOS DIRECTIVES
- FHS Directives
- Generic Trap Routines
- Resident Run-Time Library Source File
- Index

VOLUME 3

M68000 FAMILY REAL-TIME MULTITASKING SOFTWARE **MULTITASKING**
USER'S MANUAL, M68KRMS68K/D9

- General Information
- Event Manager
- Memory Manager
- Task Manager
- Time Manager
- Semaphore Manager
- Trap Server Manager
- Exception Monitor Manager
- Exception Manager
- Building a System
- List of Parts Supplied in RMS68K Package
- System Parameter Area (SYSPAR)
- RMS68K Configuration
- RMS68K Error Code Summary
- Crash Analysis Guide for VERSAdos
- Glossary of RMS68K Terms
- Summary of Directives

RMS68K/VERSAdos TABLE-DRIVEN TASK INITIATOR **TDTI**
REFERENCE MANUAL, M68KRMSTI/D2

- Introduction
- Task Table
- Creation of a TDTI Operating System
- TDTI/VERSAdos System Example Program
- Example Task Table
- Files Modified for Example
- Chainfiles Used in Example
- Accessible TDTI Routines
- Error Index Value
- Integrating a Pascal Task into a TDTI System
- Index

VERSAdos DATA MANAGEMENT SERVICES AND PROGRAM LOADER **DATA MANAGEMENT**
USER'S MANUAL, RMS68KIO/D8

- Data Management Facilities
- FHS - File Handling Services
- IOS - Input/Output Services
- Supported Devices
- Program Loader
- FHS Parameter Blocks (TRAP #3)
- IOS Parameter Blocks (TRAP #2)
- Loader Parameter Blocks (TRAP #4))
- Index

VOLUME 4

VERSAdos MESSAGES REFERENCE MANUAL, M68KVMSG/D4 **MESSAGES**

- Introduction
- Multi-Field EMH Message
- Additional Messages
- Messages According to Task
- Abort Codes
- FHS/IOS Error Codes
- Error Message Handler Codes
- ERRORMSG.SA File
- Pascal Runtime Codes
- Linkage Editor Error Codes
- Linkage Editor Warning Codes
- Task Management Directive Codes
- Assembly Error Codes

GUIDE TO WRITING DEVICE DRIVERS FOR VERSAdos, M68KDRVGD/D3 **DEVICE DRIVERS**

- Introduction
- The EXEcutive RMS68K
- VERSAdos
- The Driver
- I/O with RMS68K
- I/O with VERSAdos
- TERMLIB
- Debugging the Driver
- The Channel Management Request
- (CMR) Handler
- Driver Calls to RMS68K (TRAP #0)
- VERSAdos TRAP #n Map
- CDB Structure
- DCB Structure
- Sample Files Created by the Driver Writer
- Background and Call-Guarded Modes

SYSTEM GENERATION FACILITY USER'S MANUAL, M68KSYSGEN/D8 **SYSGEN**

- General Information
- Invoking SYSGEN
- SYSGEN Utility Commands
- SYSGEN ROM Capability
- VERSAdos - I/O Related Control Blocks and Tasks
- Hardware and Software Configuration
- Typical SYSGEN Command Files
- Definition of SYSGEN Parameters
- Application INCLUDE File Examples
- System SYSGEN Listing Extract
- Index

Furnished Separately:

CUSTOMER LETTER -- VERSAdos 4.4, M68KSYSLET/L8 and L9
VERSAdos 4.4, MSYSLET10/L2 (VME/10 Only)

VERSAdos TO VME HARDWARE AND SOFTWARE CONFIGURATION USER'S MANUAL, MVMEVDOS/D2

- Introduction
- Monoboard Microcomputers
- Dynamic Memory Modules
- Mass Storage Controllers
- I/O Channel Modules
- Miscellaneous VMEmodules
- VME Chassis/Card Cages and Backplanes
- Standard System Configurations
- System Modifications
- Booting a System
- VERSAdos Configuration Values
- Media and Disk Controller Attribute Tables
- Module Base Addresses and Offsets
- RS-232C Interface Specification for Serial Drives

ADDENDUM TO VERSAdos TO VME HARDWARE AND SOFTWARE CONFIGURATION USER'S MANUAL, MVMEVDOS/A1

Optional Manuals:

The following related manuals are optionally available from the Motorola Literature Distribution Center, 616 West 24th Street, Tempe, AZ 85282, telephone (602) 994-6561:

M68KRADDRV/D1	(RAD1 Driver)	MVME610DRV/D1	(MVME610/620 Driver)
M68KRIODRV/D1	(RIO1 Driver)	MVME615DRV/D1	(MVME615/616 Driver)
MVME3SW/D1	(MVME300 Driver)	MVME625DRV/D1	(MVME625 Driver)
MVME435DRV/D2	(MVME435 Driver)	M68KVFRTL/D1	(Absoft FORTRAN RRTL)
MVME605DRV/D1	(MVME605 Driver)	M68KPASC/D7	(Pascal Compiler)

Refer also to the DOCUMENTATION PRICE SCHEDULE, M68DPS/DD, for a complete list of all Motorola Microsystems documentation and ordering information.
